THE Nizam's Dominions

FOREWORD

1. All the Imperial tables contained in this volume are in accord with the prescribed form and cover the whole population of 14,436,148 persons enumerated in the Dominions of His Exalted Highness the Nizam on the night of 26th of February, 1931. There was no non-synchronous area this time and, therefore, there is no estimated population of any tract included in the above figure.

2. In all tables, in which statistics are given by districts, the Dominions have been divided into two natural divisions, Marathwara and Telangana. Districts being the unit of administration, subahs have been left out of consideration. Telangana includes the city of Hyderabad, which embraces the metropolis, the British Administered Areas and the British cantonments of Secunderabad and Bolarum. Aurangabad (cantonment included), Gulbarga, and Warangal towns have been treated as cities. The last is comprised of Fort Warangal, Mathwada, Hanamkonda, and Urus Karimabad and the figures of the previous censuses have been grouped together to admit of comparison.

3. The samastan of Amarchinta has this time been assigned its proper place, in Mahbubnagar district. For the purpose of comparison, therefore, its population figures at the preceding censuses have been deducted from the Raichur district total and added to that of Mahbubnagar.

4. In the age tables the individual ages have been reckoned from the nearest births and not from the number of completed years as in 1921.

5. For the first time separate figures for Urdu literates have been shown along with English figures in the Imperial table.

6. Imperial table XX is an additional feature presenting in a nutshell the area, population, density and religions of each district. The table of literate unemployed was not compiled as the schedules returned were too inadequate and entries too unreliable to be of any use.

7. Among the State tables, an innovation has been made in II by showing literacy by religions and English literacy by Taluks. The other useful additions are III in three parts regarding Infirmities, IV on cottage industries and V population of wards of the Hyderabad city.

Hyderabad Census, 1931

Table I. AREA, HOUSES AND POPULATION

THIS table shows for each district the area, the number of towns and inhabited villages, the number of occupied houses and the total urban and rural population—males and females.

2. During the decade (1921-1931) there was no other jurisdictional change in the districts save that of Amarchinta Samasthan which was transferred from Raichur to Mahbubnagar district in 1334 F. Also, the Samasthan of Gopalpet has been included in Nagarkurnul Taluk, within whose jurisdiction the villages of the Samasthan lie.

3. Figures for the four divisions (subhas) have been deleted on this occasion as they do not serve any ethnological or statistical purpose.

4. The difference between the areas here shown and those in the corresponding table of 1921 is due to changes referred to in para. 2 *supra*.

5. The Cantonment of Secunderabad including Bolarum and the Residency Bazaars have been, as heretofore, treated as part of the City of Hyderabad; and the Cantonment of Aurangabad, as part of the Aurangabad City. Details of the area and population of these places, which are administered areas, are shown below:—

Locality	Area in Sq. miles	Occupied Houses	Population		
			Persons	Males	Females
1. Residency Bazaar ..	0.576	4,524	14,472	8,116	6,356
2. Secunderabad including Bolarum Cantonment ..	19.0	31,057	120,801	64,738	56,063

3. Aurangabad Cantonment ..	3.53	1,455	7,582	4,490	3,092

6. The areas of Residency Bazaars and Secunderabad Cantonment have been slightly increased, due to more accurate information.

7. The main statistics for taluks will be found in State Tables I and II at the end of this Volume.

Table II.

VARIATION IN POPULATION SINCE 1881

This table compares the population as now obtained with the figures of the last five decades. Changes due to inter-district transfers during the decade 1921-1931 have been taken into account and figures adjusted accordingly.

(2) During the ten years, there was no other inter-district change save that of the transfer of Samasthan of Amarchinta from Raichur to Mahbubnagar district.

Note.—The following statement explains the variation in the number of towns and villages in the State :—

CITIES.

Number shown in 1921	1
Number shown in 1931	4

The towns of Aurangabad (including cantonment), Gulbarga and Warangal have now been treated as cities owing to their special characteristics—historical, educational and civic—which have been greatly developed since the last decade.

The City of Warangal has been formed by the amalgamation of four former towns, viz ; Fort Warangal, Mathwada, Hanamkonda and Urs-Karimabad, which no longer find a place separately as independent units.

The town of Muhammadnagar (Fort Golconda)—a civil area lying close to and being interwoven with the metropolis—has been abandoned as a separate town and included in the City of Hyderabad.

Table IV.

TOWNS CLASSIFIED BY POPULATION WITH VARIATION SINCE 1881

At the present time, three former towns, viz., Aurangabad, Gulbarga and Warangal, having grown into importance, are classed as cities.

2. The new City of Warangal now comprises four former towns—Matwada, Hanamkonda, Urs-Karimabad and Warangal Fort, and these as well as the civil town of Muhammadnagar (Fort Golconda), which has been absorbed in the city of Hyderabad, do no longer come under the category of independent towns and the population of these towns for previous Census is included in the totals of the year concerned.

3. Forty-eight new towns (marked with an asterisk) are included in the Table and figures for these towns for previous years are given in brackets as far as possible from the Village Lists and these are omitted from the total urban population as they were rural units then.

4. Figures for the Cantonment within the Aurangabad City for previous years are given only as much as available, and no previous Census figures for the Cantonments within the City of Hyderabad are available, as this is the first time that figures for Cantonments are exhibited separately from towns.

5. Hyderabad City and Aurangabad City include the Cantonments. The Units composing them are detailed below :—

Table VI. BIRTHPLACE

THIS table deals with the statistics of birthplace for the State. It is divided into eight parts according to the following scheme of classification :—

PART	BIRTHPLACE.
A.—Born in India.—	(I) Born within the State. (II) Born in provinces and States beyond the State.
B.—Born in other Asiatic countries.	
C.—Born in Europe.	
D.—Born in Africa.	
E.—Born in America.	
F.—Born in Australasia.	
G.—Born at Sea.	
H.—Birthplace unspecified or not returned.	

N.B.—G. and H. are new.

2. On the present occasion details of birthplaces beyond India are not exhaustive. They have been recorded for certain important countries only within and without British Dominions.

3. Out of 14,436,148 persons (7,370,010 males and 7,066,138 females) enumerated in the Hyderabad State, 14,431,167 persons (7,366,000 males and 7,065,167 females) were born in India with a population of 14,188,353 persons (7,203,129 males and 6,985,224 females) returning their birthplace within the State itself.

4. In the Capital of the State, Hyderabad City, the foreign population predominates, it being as much as 2,375 out of a total foreign population of 2,665 for the whole State.

Hyderabad Census, 1931

Table VII.

AGE, SEX AND CIVIL CONDITION

Note.—This table is divided into three parts and shows the distribution of the population by age, sex and civil condition. Part I shows the distribution for the State as a whole of the total population, male and female, by each religion; part II shows similar statistics of the total district population and for main religion only and part III gives similar information for the four cities.

2. The ages shown in this table are smoothed according to the method recommended by the Actuary to the Government of India,—the method being conversion of ternary and septenary groups into quinary groups. The individual ages reckoned in the present Census are from the *nearest* birthday and not (like 1921) from the number of completed years.

Table VIII.

AGE, SEX AND CIVIL CONDITION FOR SELECTED CASTES, RACES AND TRIBES

NOTE :— 1. This table does not deal with the whole population ; but with certain castes, races and tribes for which details cannot be obtained from the Imperial Table VII. The selection of a caste is either based on account of its numerical strength or its local importance.

2. Figures are given here for the State as a whole and for the two natural divisions, viz., Telangana (including Hyderabad City) and Marathwara.

3. The age-periods as shown in this table are as obtained from the actual returns in the Enumeration Books and hence cannot collaborate with the age-periods in the Imperial Table VII, which have been smoothed into quinary groups.

4. The attention of the reader is drawn to the Imperial Table XVII (Fly-leaf) for those castes which have been grouped into one familiar caste name.

Hyderabad Census, 1931.

Table X.

OCCUPATION OR MEANS OF LIVELIHOOD

Note :—1. In this table the occupations have been arranged in 4 classes, 12 sub-classes, 55 orders and 195 groups and figures are given for the whole population of the State and districts also.

2. Figures are given for Earners and Working Dependents only for each occupational group. It also shows for each group, the number of persons who follow it as a subsidiary means of livelihood to any other principal occupation. Persons who are totally dependent are shown on the top for the State and as well as for the districts but no attempt has been made to distribute their numbers among the different occupations.

3. "Working Dependents" means those persons of either sex who, working part or whole time, help to augment the source of the family income, living under his or her principal Earner.

4. Group 160 has been split into 160 and 160a, showing His Exalted Highness the Nizam's State servants in the former and other Indian and foreign servants in the latter category.

5. No distinction is made of figures in regard to Prisoners undergoing rigorous and other kind of imprisonment as their details have not been forthcoming and these have been shown as "working dependents" under the corresponding group.

6. The following groups which are blank for the State are omitted from the table :—

Table XI.

OCCUPATION BY CASTE, TRIBE AND RACE.

Note :—1. The selection and grouping of castes of this table follow the tables, XVII, VIII and XIV ; but only more important castes have been shown here.

2. Figures in columns 9 and 10 ; 13 and 14 ; 15 and 16 are intended to throw light on the extent to which traditional caste occupations are followed ; while columns 11 and 12 show how far castes have retained their traditional avocations as subsidiary means of livelihood beside other functions. The figures in column 17 onwards are for actual workers (i. e. earners and working dependents) and are exclusive of the figures shown in columns 9,10,13, and 14 as following traditional occupations. Asterisks have been placed in those columns which are affected by this arrangement.

Hyderabad Census, 1931.

Table XIII.

LITERACY BY RELIGION AND AGE.

1. This table corresponds with the Table VIII of 1921, except that the lowest age group has been divided into 0-5 and 5-10, classifying the first group under "illiterates." It consists of three parts, Part I gives the statistics for the whole State and for all religions; Part II distributes the literates for the total district population and by main religions; Part III gives similar figures for the cities.

2. "Literate" in the Census means that all those persons who know how to read and write an ordinary letter and the number of persons shown as literates are those for vernaculars which include English and Urdu literates.

3. For the first time separate figures for Urdu literates are shown along with English figures.

4. The details for Christians by sect and race are shown below:—

Table XIV.

LITERACY BY SELECTED CASTES, RACES AND TRIBES.

1. This table repeats the statistics given in the preceding one in respect of literacy with the difference that whereas in the Table XIII the whole population with all the literates is distributed by age and religion, it is here treated with partial population as only certain selected castes, etc., are taken.
 2. The selection and grouping of castes is governed by the same principle as followed in Tables VIII and XVII.
 3. As this table contains only such literates as are aged 7 and over and also for the reason that certain minor castes are left out, the totals for Hindu, Adi Hindu, and Tribal will differ from the Table XIII.

Table XV—Part II.

BILINGUALISM.

THIS table is new and gives for the State and also for the districts the number of persons who use other languages besides their mother-tongue. It is confined to only thirteen important mother-tongues in the State, viz., Telugu, Marathi, Kanarese, Urdu, Bhili, Gondi, Banjari (Lambadi), Erakala (Kaikadi), Gujarati, Rajasthani, Tamil, Arabic and English.

2. Only four important languages, Kanarese, Telugu, Marathi and Urdu have been tabulated for subsidiary tongues. The other subsidiary language-speakers being too insignificant a number have been left out.

Hyderabad Census, 1931.

Table XVI

RELIGION.

1. The corresponding table for 1921 is Table VI and it classifies the population by main Religions with the change in the omission of the headings, Indo-Aryan, Semitic and Iranian; replacing Muslim for Musalman and Tribal for Animist.

2. On the present occasion, the "depressed class" population has been separately headed as "Adi Hindu" and they have been grouped under "Hindu," according to the general classification.

3. Aryas and Brahmos, whose population, unlike the last time, when it came under the head "others," has now been grouped under the general head "Hindu."

4. Under the Christians, no race or denomination is given as in the last time (Table XV—1921) but they are divided into Roman Catholics, Syrians and others, for which the details are shown below :—

Sect or denomination			Persons	Males	Females
Roman Catholics	21,259	11,591	9,668
Romo—Syrians
Other—Syrians	17	12	5
*Others	130,106	67,841	62,265
Total			151,382	79,444	71,938

* Others include all Protestants as Anglican-Communion, Baptist, Methodist, Wesleyan, Presbyterian, Church of England, etc.

Table XVII.

CASTE, TRIBE AND RACE.

As last time this table is divided into two parts :—Part I deals with all the castes returned in the alphabetical order and Part II by territorial distribution of principal castes whose number exceeds 5,000. On the present occasion the following are the changes effected :—

Hindus.

(1) Wherever there has been an overlapping of names of a caste, they have been grouped under a common familiar name.

(2) Those castes, who have rigidly been observing their old names and returned as such, though identically same with the similar group, have been kept as they are, *e.g.*, Kurma, Hatkar, Panchal, Vishwabrahman, etc., in order that the purpose of census which is to measure the social facts of a caste may not suffer for want of a separate figure for comparative study.

(3) Of the three new names listed on the present occasion, the one is "Yadava", embracing all the shepherd and cowherd-population. The other is "Adi Hindu", representing all the depressed classes; some minor tribes of primitive religions have been shown as "Tribal unclassified."

(4) Certain castes, *e.g.*, Panchal and Vishwabrahman, who are practically either one or the other from the five artisan classes as Sunars, Lohars, etc., have been retained as such for the same reason as mentioned under para. 2 supra.

(5) A number of minor castes of 1921 did not return, while 4,558 persons (2,529 males and 1,969 females) returned as "no caste", and they have been included under "Hindu unclassified" together with thirteen other minor castes whose population fell below 1,000.

Adi-Hindus.

All the minor castes and as well as those who have returned as Adi-Hindu, Adi Andhra, Adi Dravida or Adi Karnatak have been shown as Adi-Hindu minor castes. Separate figures for Dhers (including Mala and Mahar) and Madiga (including Mang, Mochi and Chambhar) have also been given, which is for convenience of comparison with previous figures.

Muslims.

The distinction between a Syed or Sheikh, a Pathan or Moghal being merely nominal, having no intrinsic value, they have been grouped under one head.

The etymological expression of various castes which have been grouped with one another under a familiar name is shown below :—

Table XVIII.

VARIATION IN POPULATION OF SELECTED TRIBES.

Note :—1. The figures given here are only for 30 years, as it is only since 1901 that certain Tribals were excluded from the Hindus and shown separately, though in 1891 in one place (Age and Sex Table) *Bhils and †Gonds were shown as a sub-head of Hindus, the figures being untrustworthy for comparison have not been shown here.

2. In 1911 certain tribes did not appear at all which was perhaps due to either mixing up of these into other kindred tribes or their inclusion under Hindus.

(*) In 1891 Bhils numbered 470 (235 males and 235 females).

(†) In 1891 Gonds numbered 23,646 (14,635 males and 14,011 females).

State Table I.

AREA, HOUSES & POPULATION BY TALUKS.

1. This table gives the details for the State by taluks of the area, number of towns and villages, occupied houses, population, percentage of variation in population for twenty years and density.

2. During the decade there was no internal adjustment except that of the Samasthan Amarchinta which was transferred from Raichur to Mahbubnagar District.

3. The Military population of His Exalted Highness the Nizam's has not been included under Chaderghat as in 1921 but it is treated as an independent sub-division and included in the City.

4. The differences in the areas in certain wards in the City of Hyderabad are due to the proper readjustment of divisions by the Municipality and the increase of 2 miles in the City area as a whole to the same reason as certain suburban tracts having come under the City limits.

5. The apparent increase in the Secunderabad British Administered Areas is due to the proper measurements.

Hyderabad Census, 1931.

State Table III.

INFIRMITIES IN 3 PARTS.

Note.—1. Last time the table for Infirmities by castes was shown in the Imperial series but on the present occasion the table having removed from the All-India series, has been included as State or Local table, giving more statistical information e.g., occupations for the Infirms.

2. It comprises three parts ; part " A ", number of Infirms by Religion ; part " B ", by Castes, Tribes and Races and part " C ", their distribution by occupation.

3. The selection and arrangement of castes in part " B " are governed by the same rule as followed in Imperial Table XVII.

4. Occupational figures are shown only for the main classes. There are 6,131 males and 3,892 females (" Principal Earners " 4,375 males and 2,306 females and " Working Dependents " 1,756 males and 1,586 females) whose occupation is begging.

Hyderabad Census, 1931.

State Table V.

HYDERABAD CITY—NUMBER OF OCCUPIED HOUSES AND POPULATION BY MOHALLAS.

1. This table deals with the Capital of His Exalted Highness the Nizam's Dominions, showing the number of occupied houses and population by mohallas.

2. The arrangements of wards, mohallas and bazaars are kept in accordance with those followed by the Hyderabad Municipality and the Secunderabad Cantonment Authority though the number of occupied houses in a ward or bazaar may slightly be in variance with the figures of the Municipality or Cantonment in as much as "Occupied House" in the meaning of Census is "a dwelling place having a separate entrance."

3. The City of Hyderabad (properly may be called as "Greater Hyderabad" like Greater Calcutta) includes not only British Administered Areas (figures for which have been separately given in this table) but also certain suburban areas lying partly within and partly without the Hyderabad Municipal limits. The areas so included have been printed in italics with the letters p. m. in brackets, showing they are partly municipal; while some areas which are wholly non-municipal are also printed in italics with the letters n. m. (non-Municipal) in brackets. Similarly a few tracts lying outside Cantonment boundary are treated and shown in italics with o. c. (outside Cantonment) in brackets.

4. Asterisks against a mohalla indicate that only a part of it has come under the ward in which it lies, while the other part or parts of the same mohalla may lie in any another ward or wards, which have been shown against it in brackets.
